Change Title:

Select Intel® SSD D3-S4520/D3-S4620 Series (now Solidigm™) SKUs, PCN 0000010843-00, Product Design, Firmware Update

Date of Publication:

March 10, 2023

Key Characteristics of the Change:

Product Design

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material	July 8, 2023
---	--------------

Description of Change to the Customer:

The Intel (now Solidigm) SKUs listed in the products affected table will have the following changes.

The firmware version is being updated from 7CV10111 to 7CV10120 in the factory for YVRR 2.5" SKUs only—no change to YVRR M.2. The new firmware is intended to fix/prevent an issue related to PLI cap test failures after long-term storage.

Inventory will transition in the Solidigm factory on or beyond the above date to replace older firmware version with the latest version.

Customer Impact of Change and Recommended Action:

Solidigm will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Solidigm shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions. Please contact your local Solidigm Field Sales Rep if you have any further questions about these changes.
