Change Notification #: 0000013702
Change Title: Solidigm™ D5-P5430 Firmware Maintenance Release Series: U.2 15mm FF 3.84TB, 7.68TB and 15.36TB SKUs
Date of Publication: July 7th, 2023

Key Characteristics of the Change:

Product Design

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	August 4 th 2023
--	-----------------------------

Description of Change to the Customer:

Reason for Revision: Firmware Revision Change

Solidigm SSD D5-P5430 SKUs listed in the Products Affected table below will have the firmware updated to version 6CV10110 from the previous version 6CV10100. The changes in the new firmware version include a fix to the UEFI option ROM and incremental improvements from previous version. Inventory will transition in the factory on or beyond the above date to replace older firmware version with the latest version.

Customer Impact of Change and Recommended Action:

Solidigm anticipates very little product impact with this firmware, as most qualifications for the product are still in process. A firmware update (conversion to ver. 6CV10110) is recommended.

Solidigm will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Solidigm shipping mixed inventory. Therefore, customers will need to manage and migrate to the post conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions.

Please contact your local Solidigm Field Sales Rep if you have any further questions about these changes.
